BYD SEAL

BOKW²(670N.m) High-Powered Electric Motor **GSOKM** (NEDC) Ultra-Long Cruising Range

(1) The stated acceleration of 3.8 seconds for 0-100km/h is specific to the BYD Seal Performance AWD model. Actual acceleration times may vary depending on factors such as road conditions, weather, driver behavior, and vehicle configuration. Please refer to the specifications of your specific model for accurate performance metrics. (2) 390kW is only available for BYD Seal Performance variant.

Intelligent e-Platform 3.0

The e-Platform 3.0 is a cutting-edge system designed for the future of electric vehicles. It works seamlessly with the Blade Battery and an 8-in-1 High Efficiency Electric Powertrain, boasting an impressive 89% efficiency rating. With additional features like the Wide Temperature Range High Efficiency Heat Pump System, it ensures unmatched stability, efficiency, and safety. BYD CTB (Cell to Body) technology takes things further by integrating the Blade Battery directly into the vehicle body. This

evolution from the battery's "Sandwich Structure" to a vehicle "Sandwich Structure" significantly enhances safety, stability, handling, and performance. Seamlessly integrating the Blade Battery into the vehicle's structure, it achieves a remarkable torsional rigidity of 40,500 N.m/°, rivaling luxury car standards.

Revolutionary Blade Battery Ultra Safe Passed "Mt Everest" nail test, ensuring top safety Ultra Strength

Withstood a 46-ton truck rolling over it, highlighting its durability

Achieves over 1,000km range capacity with e-Platform 3.0

Ultra-Long Lifespan Supports over 3,000 charge cycles for reliable performance

(4)

BYD iTAC Technology

Superior Handling Performance.

Featuring high-end suspension (Double Wishbone + Multi-Link) and iTAC (Intelligence Torque Adaptation Control), our vehicle dynamics restoration surpasses traditional methods. iTAC intelligently allocates drive torque, minimizing skidding and enhancing safety. This advanced system also elevates handling comfort, ensuring a smooth and secure driving experience.

(3) This feature is available exclusively for the BYD Seal Performance variant.

High-Power Charging

Charge in just approximately 18 minutes. (30% to 80%)

BYD SEAL integrates a high-voltage electric drive boost charging solution, enabling even faster charging. The system multiplexes motor charging and driving modes, minimizing heat generation for enhanced reliability. With a peak charging power of 150 kW, BYD SEAL can recharge from 30% to 80% in just 18 minutes.

BYD ADVANCED DRIVER ASSISTANCE SYSTEMS (ADAS)

BYD ADAS (Advanced Driver Assistance Systems) is a sophisticated suite of safety technologies utilizing advanced sensors and intelligent algorithms to enhance driver awareness and mitigate risks on the road.

BYD SEAL

Double-U Floating LED Headlights

Glistening "Ripple" Lamp

Ocean-Inspired Aesthetic

The stunning BYD SEAL is a true masterpiece of ocean-inspired design, boasting an X-shaped front end that exudes sportiness and style. It is a proud recipient of the coveted iF Design Award, cementing its superior design and innovation.

19-inch Large Wheel

UV Resistance Double Glazing Panoramic Sunroof

Boundless LED Tail Light

Wave Waistline Design

With its impressive and dynamic waistline, BYD's design reduces wind resistance while fully illustrating the fusion of sport and style.

Waterdrop-Shaped Side Mirrors Inspired by the flowing design of the ocean

Bolstered Sports Seats with Immersive Driving Theatre

Ergonomically designed for maximum comfort, our ventilated front seats provide a refreshing, cooling driving experience. With electric adjustability for personalized comfort, these seats guarantee a more pleasurable ride. Additionally, our HIFI Dynaudio Premium Sound system boasts 12 state-of-the-art speakers that deliver unparalleled acoustic performance.
